

Join Us For The Re-launching of Café

Community Action For Education (Café) was formed to bring attention and agitate for remedies of the legacy of the School To Prison Pipeline in our community.

Café will present a brief history of who we are and what brought us together. We will present what its members see as the most pressing issues, and finally we will hear from Dr. Davion Lewis, Chief Executive Officer of the Empowerment Zone.

But the main purpose of the meeting is to hear what you think. What is most pressing to you? What ideas do you have to address issues in this challenging time.

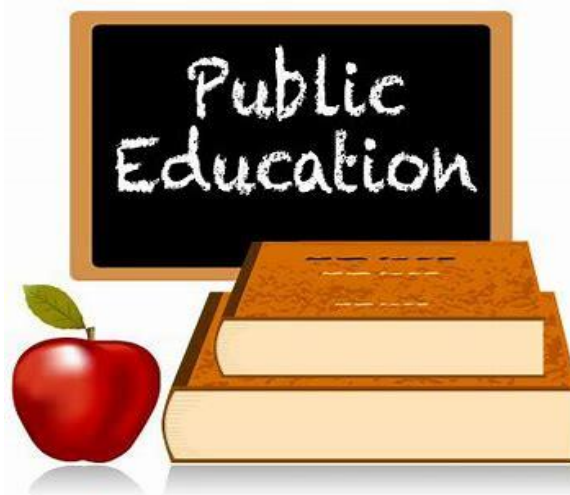

Please plan to join us. We need your ideas and your participation.
